Night Session.

The devotional services of the evening were conducted by Rev. C. †). Woodward, of Manchester: The speaker of this session was Rev. Peter Ainsile, of Baltimors, and his subject: "The World's Great Battlefields."

According to the speaker, these fields have been those upon which he missionary victories of the church have been attained. In the course of his address Mr. Ainsile traced the vigories of the church over the paganism of the Roman Empire, and dwelt at lendth upon the martyrdom of Christians in the years from Nero to Constanting and of the victories their witness for the truth achieved.

From these Mr. Ainsile passed to consider the missionary work begun by Carsy, by Judson and by Livingstone. It is to this work that the durch of Christ needs to be awakened. It is to these fields of battle that the Christian world to-day is called.

The programme for the morning is as follows:

"In the course of my work I have had occasion to examine thousands of people for life insurance. More were rejected on account of kidney troubles than for all other causes put together. Almost every other man has kinney trouble. Yet few suspected the presends of the disease when they came for examination. fast and furlous, but the scrub was unable to stop the regulars, nor to serious. Tretard them in their march to goal. Coach Vall expresses himself as greatly encouraged by the showing made by the team and at their earnestness and fast work. Asked yesterday as to the prospects of the college eleven in Saturday's game, Mr. Vall expressed confidence that the college eleven had a good show to win from their heavier opponents of Columbian. He prefers a hard, well developed, faste team to a slow and heavy one, and thinks that there is no reason why the college men with their speed and aggressiveness should not give Columbian a surprise. Of ofhe thing the coach and the team are satisfied: They are going to play until the whiste sounds the end of the game, whether they are beaten or victors.

The Columbian team will arrive in the city this evening and will be the guests of the college men during their stay. They have a strong team and are going to show the public some good foot-ball, for the strength of the local team is a guarantee of a spirited struggle. The Richmond boys are in excellent trim and have developed their team play to such a fine point that the entire eleven will get into every play. If the visitors manage to make a hole in the college line they will find a brilliant set of backs ready to throw them quick and hard. Besides Smith, Lankford and Spilman the team has in Snead and Hudgins, tackles, a powerful pair of ground gainers, while Frazer and Sutherland, the ends, will get down the field under punts fast enough to throw the opposing player in his tracks. When it comes to breaking up interference, the team play of the opponents will have to be very strong to withstand the local men.

Here is the way the teams will line up at 3:30 to-morrow:

WAR WITH RUSSIA Are Incensed at Treatment, But

Realize Hopelessness of Such a Contest.

(By Associated Press.)
PEKIN, Nov. 5.—Paul Lossar, the Russian minister to China, has reported the demand of Russia for the execution of Major Wong, who recently decapitated a noted brigand in Russian employ, and the dismissal of Yuen, the Taotal of Mukden, who is Wong's surerly officer. The Chil dismissal of Yuen, the Taotal of Mukden, who is Wong's superior officer. The Chinese officials here are unable to inform the Associated Press whether Russia proposed to withdraw her troops from Mukden and release the Tartar general of that city, now held in custody in his yamen if these demands are granted.

The Chinese are more enriged at the of that city, now held in custody in his yamen if these demands are granted.

The Chinese are more enraged at the Russian proceedings at Mukden than they have been by any events since the capture of Pekin. Some of the hot-headed members of the council have advised the Dowager Empress to declare war on Russia and send troops to release the Tartar general whose detention at Mukden wounds Chinese susceptibilities, since it is considered to be not only an insult to a high official, but as insulting to the Chinese government itself. Better informed officials, however, realize the helplessness of China, and the madness of attempting to go to war with Russia. Their counsels have hitherto prevailed, though there is much baseless war talk in the native press and among the younger Chinese officials.
